

## 65<sup>th</sup> ANNUAL DIAGNOSTIC SLIDE SESSION 2024

### CASE # 3

#### **Submitted by:**

Blake Ebner, M.D, Ph.D., M. Adelita Vizcaino, M.D., Diva Salomao, M.D.  
Department of Laboratory Medicine and Pathology, Mayo Clinic Rochester, MN

#### **Clinical history:**

The patient is a 4-year-old boy with a history of right eye retinal detachment and neovascular glaucoma which ultimately progressed to a blind, painful right eye. His medical history also includes behavioral outbursts, night terrors, and speech difficulty. Otherwise, the patient's neurocognitive development is normal.

#### **Material submitted:**

1. Virtual H&E slide
2. Macroscopic right eye photographs

#### **Points for discussion:**

1. Histopathologic features and differential diagnosis
2. Clinical significance and outcomes
